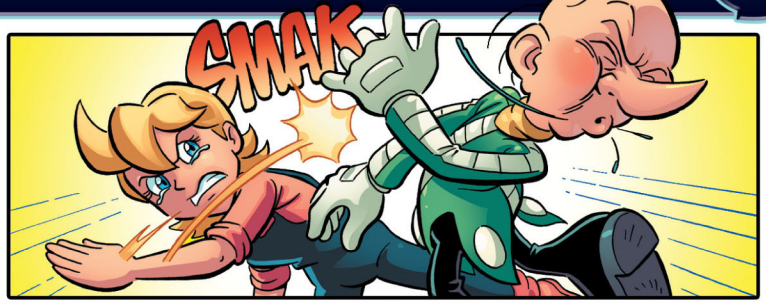
UNIVERSE™
PEPPERS-AMASH 2012!

Welcome to the planet Mobius - - a world beyond what you know from the SEGA games! Dr. Eggman has tracked his wayward lackey to the Dragon Kingdom! But is Dr. Eggman the hunter – or the hunted?

SONIC UNIVERSE™

PREVIOUSLY...



Doctor Eggman and his evil Eggman Empire have been on quite the winning streak lately! With the launch of his latest battle station and roboticization of Sonic's teammate and main squeeze, Sally Acorn, you're lookin' at one jolly evil genius!

Jolly, that is, until his faithful servant and lackey for years, Snively, turned traitor to the Empire and launched a daring escape! The little sneak has been on the run ever since, first stopping over in the United Federation in an attempt to recruit his kid sister Hope!

Hope thought for a moment that Snively had changed his villainous ways, but quickly discovered that this was not the case. Snively fled in disgrace, vowing to free his former flame, the Iron Queen, from her prison cell in the Dragon Kingdom!

But Eggman is in hot pursuit, and Snively is running out of allies...
